

Advancing AI

Thomas Hundt

Axiata Chief Business & Technology Officer

Disclaimer

The following presentation contain statements about future events and expectations that are forward-looking statements by the management of Axiata Group Berhad (“Axiata”) (“Company”), relating to financial trends for future periods, compared to the results for previous periods, characterised by the use of words and phrases such as “might”, “forecast”, “anticipated”, “project”, “may”, “believe”, “predict”, “expect”, “continue”, “will”, “estimate”, “target” and other similar expressions.

Forward looking information is based on management’s current views and assumptions including, but not limited to, prevailing economic and market conditions. Our business operates in an ever-changing macro environment. As such, any statement in this presentation that is not a statement of historical fact is a forward-looking statement that involves known and unknown risks, uncertainties and other factors which may cause Axiata actual results, performance and achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

This presentation does not constitute an offer or invitation to sell, or any solicitation of any offer to subscribe for or purchase any securities and nothing contained herein shall form the basis of any contract or commitment whatsoever. No reliance may be placed for any purposes whatsoever on the information contained in the presentation or on its completeness, accuracy or fairness. None of the Company nor any of its shareholders, directors, officers or employees nor any other person accepts any liability whatsoever for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection therewith.

“RM” shall mean Ringgit Malaysia being the lawful currency of Malaysia. Any discrepancies between individual amounts and totals are due to rounding.

Axiata.AI: Solid Foundations Established - Measurable Progress

Data & Architecture

Classical & Gen AI Use Cases

Autonomous Networks

People & Governance

Enterprise Data Architecture Operationalized

API & Data Manifesto introduced

Unified Data Ocean blueprint completed

50+ Classical AI Use Cases in AI Factory

20+ GenAI Use Cases in production

Cross-OpCo collaboration on AI Use Cases

A3 architecture validated (ZTP, GPT, data lake)

Automation Enablers (Data Ocean, SMO, Cloud Core, CICDT)

AI network layer (rApps, rApps builder, intent AI based UCs)

Board & SLT AI training completed

AI Training for Axiata Senior Leaders

AI Curriculum and basic Training

Group Wide Data & AI Gov. Policy & standard

Classical AI Use Cases in Production – Examples from OpCos

Emergency Balance Service

Driving Revenues by reducing out of balance customers

Implemented in  robi

Dynamic Pack Pricing Offer

Powering Revenues by predicting willingness-to-pay

Implemented in  Dialog

AI-Powered Credit Scoring Model

Improving retention rates by identifying opportunities

Implemented in  Boost

Next Best Offer recommendation engine

Increasing ARPU by tailored offers delivered at the right time

Implemented in  robi  Dialog  Boost

AI-Powered Churn Reduction

Reducing churn by AI-Driven behavior pattern recognition

Implemented in  Dialog  Dialog  Boost

Personalized Upsell offer powered by AI

Increasing ARPU by Intelligent plan, add-on & recommendation

Implemented by  ada
analytics data advertising

Generative AI Use Cases in Production – Examples from OpCos

Intelligent Virtual Assistant

Improving Cx by managing complaints effectively

Implemented in 

Gen AI powered Dialog GPT for employees

Improving productivity with faster human-like response

Implemented in 

Conversational GPT for back-office functions

Improving efficiency by delivering faster search

Implemented in 

Gen AI for Marketing content generation

Saving costs and delivering faster time to market

Implemented in 

AI Coding Assistant powered by Gen AI

Improving efficiency and productivity

Implemented in   

AI in product creation DTE/Genix

Enhanced productivity gains through BRD to deployment journey

Implemented in 

Our Strategy for Value Creation from AI

From AI-Powered

Current state for most

- Adding AI components to existing systems
- Point solutions with siloed data
- Batch processing, periodic updates
- Moderate impact, limited scale

To AI-Native Domain Transformation

Our 2026-2027 path

- Entire domains rebuilt with AI at core
- Unified Data Oceans, real-time decisioning
- Always-on optimization, closed-loop learning
- **Impact @ Scale at enterprise level**

What is AI-Native Domain Transformation?

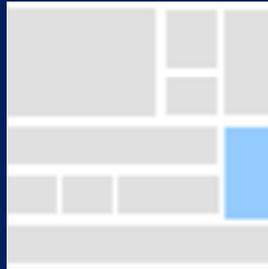

No AI impact

Traditional System
(no AI component)

Little to moderate impact

AI-powered

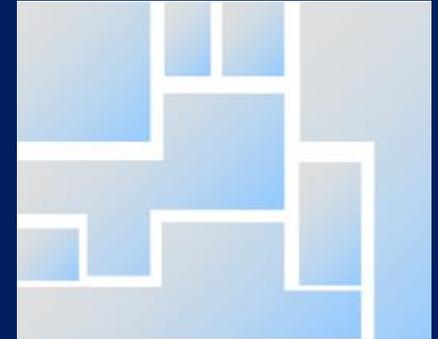

Replacing an existing component w/ an AI based component

Adding a new AI based component

AI Impact @ scale

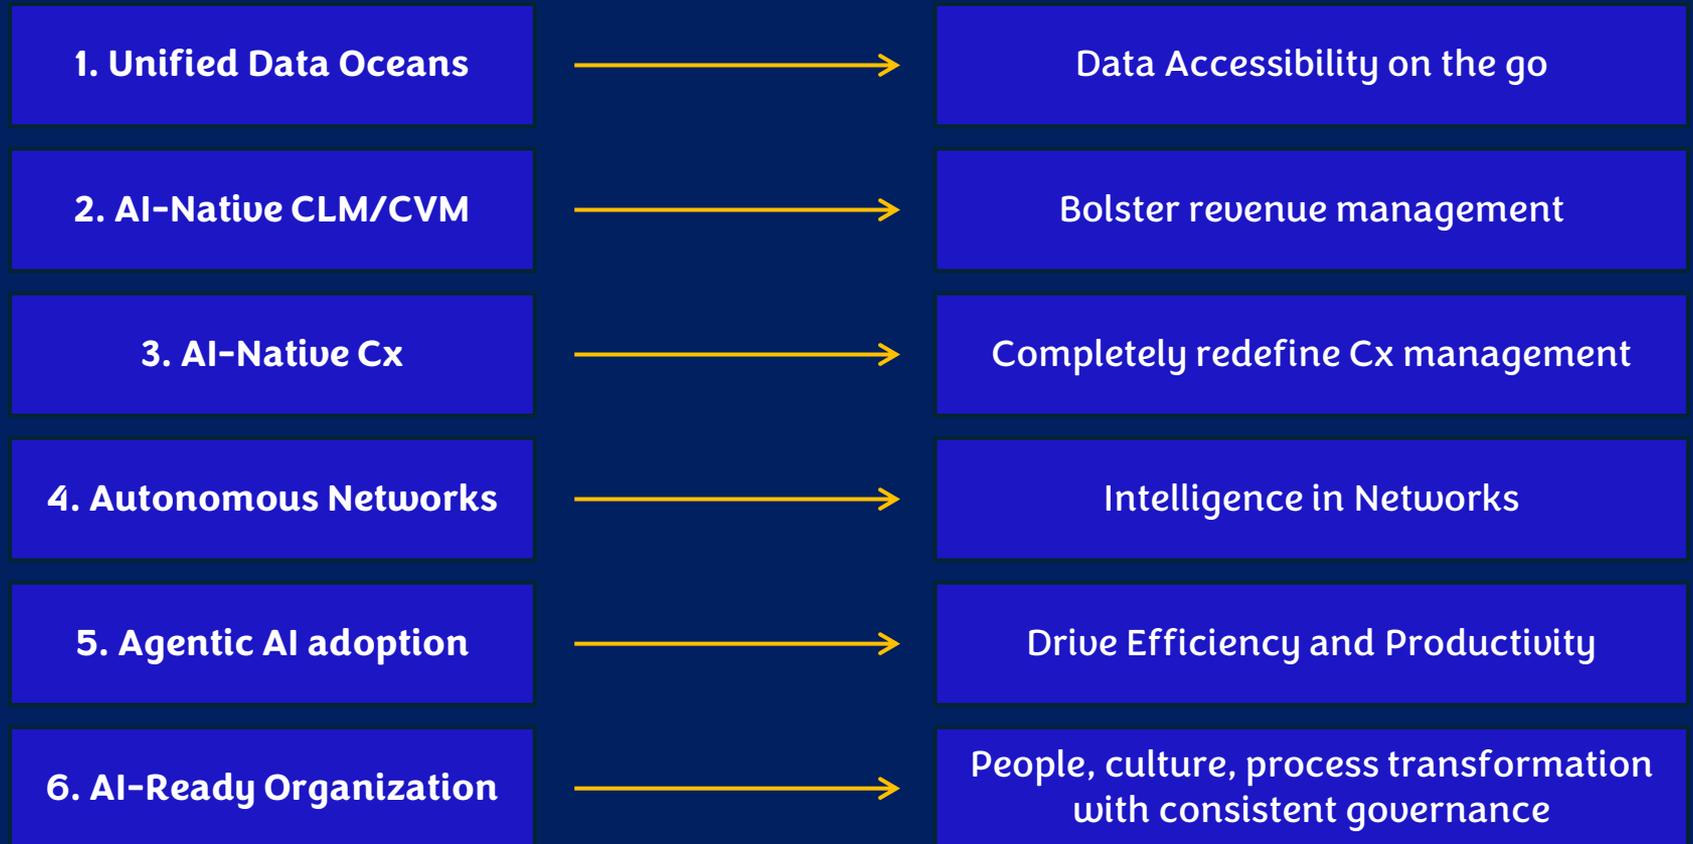

AI Native
(Domain Transformation)

AI Native is where all components potentially use AI in and among each other

Six Priorities for 2026–2027 to become AI-Native

Our Execution Approach

1

Strategic Alignment for Value Creation

Priorities with explicit business impact targets, aligned to value drivers: ARPU, cost efficiency, NPS

2

6 Taskforces created, Group orchestrated, OpCo led

To deliver those identified 6 focus areas in 2026

3

Governed Execution

Monthly Taskforce reviews | Quarterly exec alignment | Bi-annual Board update

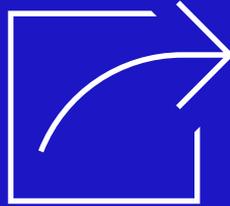

Axiata's Responsible AI Approach

**Consistent principles
across the entire AI
lifecycle**

Implement policy through
Leadership and Governance

**Agile adoption of
cutting-edge AI
technologies**

Keep updating and applying
RAI Process & Tech

**Build a sustainable
structure for
Responsible AI**

Embed Culture through
trainings & communication

Putting it all together – The full ‘Axiata – AI @ Scale’ picture

Vision & Purpose

AI-Native Telco-TechCo
Unlock Value from AI @ Scale

Strategic Focus

Transform Rev. management

Redefine Customer Exp

Build Intelligence into Networks

Drive Efficiency and Productivity

Execution by **6 Taskforces**

1. AI native CLM/CVM

2. AI native Customer Exp

3. Autonomous Networks

4. Enterprise scale Agentic AI

Tech Enabler

5. Unified Data Oceans – Axiata Data & API Manifesto

Efficiency Enabler

6. AI ready Organization – People Transformation

Governance

Responsible AI by Design – Axiata Data and AI Governance Policy

Foundation

Culture – The Operating System Underneath

Key Takeaways

1

Axiata's AI Journey is well underway with solid foundations built and progress measurable

2

In 2026, we are focusing on transforming Axiata from AI-Powered to AI-Native to unlock value from AI @ Scale

3

Our execution approach drives outcomes through rigorous tracking of progress, agile governance, and core foundations

Thank you
